Plan:

This 3 Bedroom plus Study Family home is just perfect for the smaller family. Very functional with its separate toilet (no more waiting for whoever is hogging the bathroom!) and separate lounge (to get away from it all for a while) you will love living in this beauty.

The window seats and built-in bookshelf just add to make it a little more homely, imagine snuggling up with a book on one of the window seats on a sunny winters day.

Whilst the raking ceiling in the kitchen, dining and living areas add that touch of class.
